Part X, Line 2:

MSFC regularly reviews and evaluates its tax positions taken in previously
filed information returns and as reflected in its financial statements,
with regard to issues affecting its tax status, unrelated business income
and related matters. Management believes that in the event of an
examination by taxing authorities, its positions would prevail based on
the technical merits of such positions. Therefore, MSFC has concluded that
no tax benefits or liabilities are required to be recognized. Should the
tax exempt status be challenged in the future, MSFC's three most recent
tax years are open for examination by the IRS, generally for three years
after they have been filed.

Form 990, Part VI, Section B, Line 15:

In developing the model, the Executive Committee considered factors including fairness of compensation without excessive salary growth while rewarding excellent performance, justifiability of the expense as a proportion of the organization's resources, as well as input from consultants and Executive Directors of similar sized organizations. The current process is intended to provide a steady model for salary growth, requiring appropriate but not excessive annual time investment of the Executive Committee and Board. When determining a raise, the Executive Committee and Board must find a number that is not only appropriate for the caliber of work, but one that is responsible to external stakeholders. The specific raise can include COLA plus a merit-based percentage. An overall score is used to determine the appropriate range for a merit-based salary increase. The overall score is determined by finding the mean of all scores given on the Executive Director Annual Evaluation by the Board of Directors (both Directors and Staff complete evaluations of the Executive Director and the Executive Director completes a self-evaluation).
